

Maxence Poutord

Senior Software Engineer

I'm Maxence, a French Software Engineer with +15 years of experience building high-value web applications. I'm a dedicated team player who takes initiative to overcome challenges and get customer-facing features shipped. I also dedicate time to knowledge sharing via blog posts, mentoring, and conferences.

Highlights

- Write technical blog posts in French & English (see maxpou.fr)
- Mentor junior developers and people who want to retrain as a developer
- Tech trainer and public speaker (see maxpou.fr/speaking)
- Open source enthusiast and contributor (see github.com/maxpou)

Experience

Skills

Proficient

JavaScript
TypeScript
React.js
Vue.js
Git
Testing (integration, unit & e2e)
Web Accessibility (A11Y)

Comfortable

Node.js
NestJS
CI/CD
Web Performance
GraphQL
ElasticSearch

Familiar

Docker
Supabase
TailwindCSS
AWS/Azure

Languages

Advanced

English

Native

French

Intermediate

Spanish

Interests

Canyoning (I guide group), running (100km/month), cycling, hiking, cooking, travelling (Asia, Europe), video games (Age of Empires II).

Senior Software Engineer

May 2021 - Present

Orderfox, Remote (Europe)

Migrated a legacy web application to TypeScript and React, boosting team velocity by 3x (measured by sprint story point completion)

Owned the application architecture and its infrastructure (build tooling, CI/CD, deployments)

Improved backend performance for Partfox search, reducing response time from ~25s to ~300 ms

Improved frontend performance index (50 to 90 lighthouse score)

Senior Software Engineer

May 2018 - May 2021

VSware, Remote (Europe/Asia)

Improved the frontend infrastructure of a massive Vue.js application (~5k vue&js files / ~650k lines of code). Frontend relies on a big monorepo (~40 packages)

Software designed and planned major architecture changes towards micro-frontends

Introduced and maintained a testing culture (from 0 to 3.1k unit & integration tests)

Worked on accessibility (A11Y) to meet WCAG AA conformance

Mentored junior developers

Software Engineer

November 2016 - April 2018

Hostelworld, Dublin, Ireland

Led the frontend migration of hostelworld.com from jQuery to Vue.js.

Architecture definition, development and maintenance of the main website (back+front)

Trained and mentored team to modern JavaScript and Vue.js

Consultant

May 2015 - August 2016

Conserto, Nantes, France

Web Developer/Project Manager

October 2011 - January 2015

Energy Formation (ENGIE Group), Nantes, France

Education

- **Architecte Logiciel / Software Architect (master degree)**
2013 - 2015
ENI Ecole Informatique, St Herblain, France
- **Concepteur Développeur Informatique / IT developer designer (bachelor degree)**
2011 - 2013
ENI Ecole Informatique, St Herblain, France
