

Maxence Poutord

Senior Software Engineer

I'm Maxence, a French Software Engineer with 15+ years of experience building high-value web applications. I'm a dedicated team player who takes initiative to overcome challenges and get customer-facing features shipped. I also dedicate time to knowledge sharing via blog posts, mentoring, and conferences.

Skills

Proficient

JavaScript

TypeScript

React.js

Vue.js

Git

Testing (integration, unit & e2e)

Web Accessibility (A11Y)

Comfortable

Node.js

NestJS

CI/CD

Web Performance

GraphQL

ElasticSearch

Familiar

Docker

Supabase

TailwindCSS

AWS/Azure

Languages

Advanced

English

Native

French

Intermediate

Spanish

Interests

Canyoning (I guide groups), running (100km/month), cycling, hiking, cooking, travelling (Asia, Europe), video games (Age of Empires II).

Highlights

- Build and run side projects (see [pedalyze.bike](#), [youtube-mate.com](#))
- Write technical blog posts in French & English (see [maxpou.fr](#))
- Mentor junior developers and people who want to retrain as a developer
- Tech trainer and public speaker (see [maxpou.fr/speaking](#))

Experience

Senior Software Engineer

May 2021 - Present

Orderfox, Remote (Paris and Berlin)

Owned application architecture and infrastructure; drove key tech decisions

Led migration to TypeScript and React, boosting team velocity by 3x

Cut search engine response time from ~25s to ~300ms

Improved frontend performance index (50 to 90 lighthouse score)

Interviewed candidates and coached junior engineers

Senior Software Engineer

May 2018 - May 2021

VSware, Remote (Europe/Asia)

Improved the frontend infrastructure of a massive Vue.js application (~5k vue&js files / ~650k lines of code). Frontend relies on a big monorepo (~40 packages)

Designed and planned major architecture changes towards micro-frontends

Introduced and maintained a testing culture (from 0 to 3.1k unit & integration tests)

Worked on accessibility (A11Y) to meet WCAG AA conformance

Mentored junior developers

Software Engineer

November 2016 - April 2018

Hostelworld, Dublin, Ireland

Led the frontend migration of hostelworld.com from jQuery to Vue.js.

Architecture definition, development and maintenance of the main website (back+front)

Trained and mentored team to modern JavaScript and Vue.js

Consultant

May 2015 - August 2016

Conserto, Nantes, France

Web Developer/Project Manager

October 2011 - January 2015

Energy Formation (ENGIE Group), Nantes, France

Education

- **Architecte Logiciel / Software Architect (master degree)**
2013 - 2015
ENI Ecole Informatique, St Herblain, France
- **Concepteur Développeur Informatique / IT developer designer (bachelor degree)**
2011 - 2013
ENI Ecole Informatique, St Herblain, France
